

HELP YOUR COMMUNITY BE A PART OF SCHOOL SURVEILLANCE

School absences reflect health in the community

Your input is valuable. School absences are early indicators of community wide outbreaks. Thus, they help public health make decisions about disease control (flu, pertussis, chicken pox....), prevention measures, hospital preparedness and more.

It's Easy! All you need to do is go to a website each day and report two numbers – total absences and absences due to illness.

DIRECTIONS: Login to: <http://www.maricopa.gov/SILISWeb/Security/Login.aspx>

The screenshot shows the 'School Surveillance Log On' page. At the top, there is a header with the Maricopa County seal and the text 'School Surveillance System', 'Maricopa County Department of Public Health', and 'Office of Epidemiology'. Below this is a login form with the following fields:

- County:** A dropdown menu with 'MARICOPA' selected. A red callout box points to this field with the text: 'Select the County your school is in.'
- Role:** A dropdown menu with 'Organization Data Entry' selected. A red callout box points to this field with the text: 'Select "Organization Data Entry"'
- District:** A text field with 'Deer Valley Unified District' entered. A red callout box points to this field with the text: 'Select the District your school is in.'
- Organization:** A dropdown menu with 'Greenbrier Elementary School' selected. A red callout box points to this field with the text: 'Select the name of your school.'
- Password:** A text field with five dots representing a password. A red callout box points to this field with the text: 'Enter your password. (*****) & hit Log In.'

At the bottom left of the form is a blue 'Log In' button.
